Code-barres

3 700 265 700079

Description

Roof terrace lacquered aluminium color anthracite gray with water repellent fabric and LED lighting. It displays a chic design with clean lines. This roof terrace, connected (smartphone) and remote controlled presents a new step in the home automation of the garden. The deployment of its high quality canvas can be controlled with your smartphone and allows you to manage remotely with ease. The ultimate in sophistication, optional equipment will automatically deploy or remove the fabric, as measured by the amount of sunshine or the force of the wind. To ensure its longevity, the canvas in the retracted position is sheltered with a protective panel rain.
